ValuePest.com Celebrates It's 2000th Termite Customer of 2007

Charlotte, NC (May 30, 2007) ValuePest.com is celebrating the 2000th new termite customer of 2007. "I Robert Tatuga of Mooresville, North Carolina

With gas and other consumable goods prices going through the roof, we look forward to helping South Carolina homeowners save some big money with our flat-fee termite and pest prevention system," says Jeff Price.

According to ValuePest.com's President Bob Jones, "Most termite companies charge between \$900 and \$3,000, and that's just termite control. That doesn't include taking care of other crawling insects like ants and spiders. Most homeowners just don't have that kind of cash these days. That's why ValuePest.com was created. We take saving the American Homeowner money, serious. I believe the addition of this South Carolina service center is another great leap towards our goal of becoming America's largest residential pest prevention company. Jeff is a great addition to our franchise team and we look forward to working with him to make his service center the very best."
